RETAIL READY
DISPLAY PACKS**

Features:

- Full function LED combination lamp
- All in one solution for rear lighting
- Rear stud or front screw mount - Multimount™
- Fully ADR compliant
- Available in 0.5 & 9M Cable

Description:

The CRL10LED is new generation combination lamp with innovative design making it suited to a wide variety of applications. Incorporating stop / tail / indicator, licence plate and reflector functions all in one package. This series features the new Multimount™ system enabling the lamp to be either stud mounted or screw mounted depending on the mounting requirement. This makes a very versatile lamp for almost any rear signalling application. Comprising a polycarbonate lens, high quality optics and tough ABS base the CRL10LED series delivers paramount reliability and performance. Available in 0.5mtr and 9mtr cable specifically for boat trailers.
