

PRODUCT DATA SHEET CRL350 LED COMBINATION SERIES & RL400 LED SINGLE INSERT SERIES

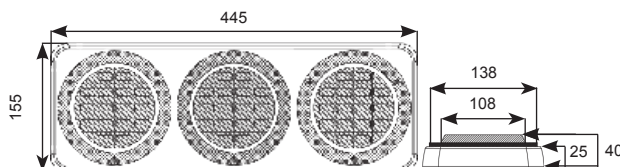

Features:

- Stop / Tail / DI / Reverse / Reflector
- Heavy duty LED signal lamp
- Front Mount
- Free form optic design
- ADR and CTA approved

Description:

The new CRL350 series is the next advancement in automotive LED lighting technology. Featuring high visibility optics and modular design, the CRL350 series can be customised to suit stop / rear position / direction indicator and reverse functions as required. Constructed with a polycarbonate lens, heavy duty ABS base, and front mounting points, makes it a very versatile lamp that would suit almost any rear signalling application.
