

PRODUCT DATA SHEET

FLLD LOAD RESISTOR MODULES

Features:

- Available in a range of voltages and wattages
- Slimline sealed design
- Compact for easy installation
- Coloured with markings to assist in installation

Description:

Whitevision's FLLD load modules feature the latest design for ensuring correct LED light operation or wherever a replacement load is needed. The new slimline profile ensures easy fitting in compact spaces with two mounting holes for secure installation. The innovative red anodised colour, together with the printed heat dissipation symbols, ensures installers are aware of the appropriate mounting areas. Available in a complete range of voltages and wattages, the new slimline series caters for a wide range of applications.

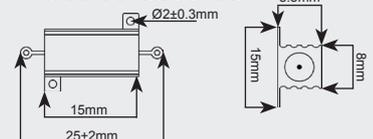

Parts List

FLLD1205TWB	5W LED Load Resistors 39R - 12V TWIN BLISTER
FLLD2405TWB	5W LED Load Resistors 39R - 24V TWIN BLISTER
FLLD1221TWB	21W LED Load Resistors 8R - 12V TWIN BLISTER
FLLD2421TWB	21W LED Load Resistors 8R - 24V TWIN BLISTER

Specifications:

Voltage:	1221: 12V 1205: 12V 2421: 24V 2405: 24V
Power:	1221: 21W 1205: 5W 2421: 21W 2405: 5W
Housing:	Aluminium
Mounting:	Screw
Environmental:	IP67

5W Resistors

21W Resistors
