

PRODUCT DATA SHEET 1200 LED REAR SIGNAL SERIES

Features:

- Ultra heavy duty construction
- Designed for commercial environments
- Dimensions to allow retrofitting, upgrade or replacement of similar style lamps
- Enhanced chemical protection
- Fully ADR Compliant

Description:

1200 Series LED lamps feature advanced crystal optic technology to ensure compliance and conformity across a range of signal functions. The 1200 series is specially designed for heavy duty, constant use commercial applications. These lamps feature high heat and enhanced chemical protection to perform in harsh operating conditions. The dimensions of the lamp are exactly to similar style lamps allowing for easy retrofit upgrades or replacement. The units can either be flush mounted or stud mounted with supplied base. Suited to OE and commercial applications.
