

PRODUCT DATA SHEET 287 SERIES LED AWNING LIGHT

Features:

- 800 lumen white light output
- 12-28V Varivolt®
- Amber insect repellent light mode
- Easy surface mount
- IP67 fully sealed for exterior use

Description:

Whitevision's LAW287 Series LED awning lights are compact, powerful and provide exceptional exterior scene illumination for mobile applications. The surface-mount design together with a 60-degree illumination angle makes this awning light ideal for side-mounting installations. With 800LM output of clear crisp light and the ability to switch to an amber insect repellent light make this unit very versatile. Fully sealed to IP67 with a durable long-lasting ABS base the LAW287 Series is the perfect choice where compact exterior vehicle lighting is required for caravans, trailers and recreational vehicles.
