

PRODUCT DATA SHEET BLUE SAFETY SPOT LAMP SERIES

Features:

- Heavy duty polycarbonate lens with ABS housing
- 2 x 5W high intensity CREE LEDs
- Available in spot / arrow pattern
- Stainless steel brackets
- Low heat for safe operation

Description:

Safety is paramount on worksites, which is why Whitevision is pleased to introduce our new blue LED forklift warning lights. Mounted on the front or rear of the forklift, this forklift warning lamp projects a bright blue light onto the floor alerting workers and other pedestrians of any approaching vehicle. Featuring 12-80V Varivolt technology, IP6K9K environmental protection, ABS housing with polycarbonate lens and full stainless steel mounting brackets, these new LED work lights are built and designed for heavy duty use.
