

PRODUCT DATA SHEET LGH130 LED GRAB HANDLES

Features:

- LED mode touch switch conveniently located behind the handle
- Can trigger other LED lights where required
- Can retrofit older lights of same making - great for repairs & replacements
- Built for outdoor use
- Natural white LED illumination
- Blue LED courtesy light

Description:

The first in the new flush fit series, the LGH130B LED grab handle is perfect for caravans, RVs or any mobile applications where illumination and accessibility aids are required. Constructed from heavy-duty materials this grab handle is solid and sturdy and has been designed for exterior use. Featuring a switchable led light, this unit emits a white exterior light together with a soft blue illuminated light for the grab handle. The LGH130B will perfectly retrofit older lights of the same style making it great for repair or replacement. It is also suited to OEM applications where quality and appealing designed grab handle is required.
