

## PRODUCT DATA SHEET

### RAYZER™ SINGLE ROW LED LIGHT BARS

**RETAIL READY PACKAGING**

#### Features:

- Low Profile
- Multifunctional
- Powerful combination beam
- Free form reflector technology for consistent light
- Heavy duty commercial quality
- ECE Approved

#### Description:

Rayzer™ Series single row LED light bars use the latest free form optics to provide outstanding lighting performance with a visually appealing style. Superior light output using Broadbeam technology achieves a long-reaching and wide consistent beam ideal for any driving situation.

The Rayzer™ series features an integrated position / DRL light for enhanced safety and includes a comprehensive stainless steel mounting kit. Constructed from high grade anodised aluminium, sealed to IP67 and fitted with a virtually indestructible polycarbonate lens Rayzer™ Series LED bars are truly built for the long haul.
