### Description:

Introducing our all new LWL300 Series round work lights, available in 18W, 27W & 39 Watt. Featuring 10-30V Varivolt® technology, IP67 environmental protection, Diecast Aluminum housing and stainless steel mounting brackets, these new LED work lights are built and designed for heavy duty use. With an ultra wide 60 degree solid fill flood beam our newest LED work lights are extremely efficient for the amount of dissipated light. Ideal for service vehicles, heavy equipment or any application where heavy duty high efficiency scene lighting is required.
