Description:

Introducing our all new LWL400 Series square work lights, available in 12W, 27W & 48 watt. Featuring 10 - 30 V Varivolt® technology, IP67 environmental protection, Die-cast aluminium housing and stainless steel mounting brackets, these new LED work lights are built and designed for heavy duty use. With an ultra wide 60 degree solid fill flood beam our newest LED work lights are extremely efficient for the amount of dissipated light. Ideal for service vehicles, heavy equipment or any application where heavy duty high efficiency scene lighting is required.
