

PRODUCT DATA SHEET

NPL5 LICENCE PLATE LAMP TWIN BLISTER

Features:

- Compact
- Easy fit
- Fully sealed weather proof lamp
- Pre-wired 0.2M Cable

Description:

The NPL5LED is a neat and compact LED licence plate light designed to fit common applications. The small dimensions make it easy to fit in tight spaces and the low profile design allows for light trailers, caravans and some larger vehicle fit-outs. This LED has also been made to retrofit older lights of the same style and is a direct-fit replacement. Available in a twin blister retailer-ready package, the NPL5LED is a fantastic option for almost any licence plate function applications.
