PRODUCT DATA SHEET
TRIPLE TONE REVERSE ALARMS

Features:

- Triple-tone
- Enhanced Broadband Output
- Easy installation

Description:

Whitevision's commitment to innovate products for improved safety is demonstrated in its all-new release of triple-tone reverse alarms. These new reverse alarms have been exclusively designed by Whitevision to cater for varying applications where the normal dual-tone reverse alarm is inadequate. The unique triple-tone systems feature standard "Beep", standard broadband and an all-new enhanced broadband. Available in 97 or 102 decibels with standard fitment sizing and easy 3-wire hookup. These all-new innovative alarms from Whitevision are perfect for OEM or retrofit applications.
