

PRODUCT DATA SHEET RL180 REAR SINGLE LAMP SERIES

Features:

- Free form optics
- High reliability design
- Innovative end clip upgrades
- Easy customised for specifications
- Fully ADR compliant

Description:

The RL180 Series features advanced LED optical free form reflector technology to achieve a highly styled robust lamp that can be customised to match modern vehicle and trailer designs. The RL180 series is made for heavy duty use and includes a high impact polycarbonate lens and strong ABS Base. Fully ADR compliant for stop, rear position, direction indicator and reverse the RL180 series uses smart clip end covers which for a fully compliant rear lighting solution. Suited to OEM and commercial applications.
