

## PRODUCT DATA SHEET RL400 SERIES LED SINGLE INSERT BLISTER

### Features:

- Retrofits similar style lamps
- Heavy duty LED signal lamp
- Front Mount
- Free form optic design
- ADR and CTA approved

### Description:

The RL400 series is a robust LED signal lamp designed specifically for heavy duty applications where high reliability is required. Featuring free form optics and styled lens design. The RL400 series is installed via rubber mounting insert for maximum protection against constant vibration environments. ADR compliant for stop, rear position, direction indicator and reverse, these lamps are suitable for direct replacement or older style lamps of the same style. Suited to OEM and commercial vehicle applications
