WHITEVISION

PRODUCT DATA SHEET
SM65 MARKER SERIES

WITH RETAIL READY DISPLAY PACKS

Features:

· Heavy duty LED marker
· High visibility design
· Protective base
· Smartclip™ mounting
· Fully ADR compliant

Description:

SM65LED series markers are designed for applications where high performance and reliability is required. With wide angle optics and extended base design, the SM65LED series delivers maximum visibility in applications where multiple markers are installed. Providing a compliant solution for front end outline, rear position, supplementary indicator and side marker functions. These markers also feature a robust Smartclip™ base which is contoured to protect the main lens and LED module from extreme conditions. The SM65LED series is built for heavy duty use and suited to OEM and commercial vehicle applications.
