

## PRODUCT DATA SHEET SM70 SERIES MARKERS

### Features:

- Integrated Reflector
- Low Profile Design
- Fits common applications
- All in one solution

### Description:

The Slimline SM70 Series offers a full function LED marker solution with style and convenience. This 13mm low profile marker series features integrated ADR compliant retro reflectors constructed from virtually unbreakable polycarbonate lenses. With easy surface mount and common 80mm C-C hole fitting dimensions, these markers are excellent options for replacement or quick installation. Available in Amber, Red and White for front, rear and side placement, the SM70 series is well suited to Caravan and RV applications as well as light truck and trailers.
