

NEW PRODUCT RELEASE

FM850 SERIES LED BULL BAR Lamps

Description

The FM850LED is an innovative full featured LED bull bar lamp comprising indicator and front position functions in a single package solution. This lamp features a heavy duty construction designed specifically for SUVs and extreme environments. The clear lens design is highly aesthetic to match modern vehicle styling. A tab mount design allows for simple mounting with side adjustment. Dimensions of the FM850LED allow for retrofit, upgrade or replacement of similar style older bull bar lamps. Suit OE, SUV and commercial applications.
